1. Locate the XML files that contain the alignment information to import. You might have received this information from PLATO Learning on a CD, via email or via an Internet download.
2. Log on to PLATO Web Learning Network Client-Hosted as the Account Coordinator for your account.
3. Click the **import tools > XML alignment import** option.
4. Click the **Browse** button.
5. Select an XML file.
6. Click the **Import Alignment XML** button.
7. Make sure the message *Successfully Installed* displays. If an error message displays, contact PLATO Support.
8. Click the **home** option.
9. Repeat steps 3–8 for all remaining XML files.
10. Click the **log out** option.
